PENNOYER TO CLEVELAND.

Governor Pennoyer, of Oregon, sent the following open letter to Cleveland on Christmas:

"The extraordinary circumstances which g eet the return of this holiday must be my excuse for writing you. Today is the first Christmas in the history of Oregon when more than two-thirds of its people are out of employment, and more than onethird without sufficient means of support, Business is almost completely stagnated; money is not to be obtaired, and debtors are powerless to avoid the seizure of their property and their homes to satisfy a small percentage of their value to meet the claims of creditors, Repeated appeals have been made to me, as Governor of Oregon, to assemble the Legislature in order to alleviate this condition of affairs and avert an impending calamity. Redress is, however, not in our hands, but in yours, and hence this appeal to you.

"The laws of Congress, which have discriminated against silver and made gold alone full legal tender money, giving to the money lender the privilege of refusing both the silver dollar and the silver certificate, thus rendering unavailable more than one-half of the National currency as absolute debt paying money are sole causes of the decline of values, the paralyzing of business and the consequent impoverishment of the great army of wage earners and of the impending starvation of their wives and children."

"If, when you stood on the eastern portico of the Capitol on the 4th of last March, you had speedily convened Congress and announced to the people that you would endeavor for teams, and horses carefully in the extra session to carry out the gave your assent and upon which you sale. were elected, which declared for the use of both gold and silver as standard money without discrimination against either metal, the widespread depression of business, which has diminished the value of property of the nation by fully one-half, would never have occurred, and if now you would give such advice to Congress the further downward tendency would be checked and with favorable congressional legislation business would again revive and prosperity would again visit our land. It is honorable to carry out the pledges of the party to the people and to not most dishonorable not to do so. The responsibility lies entirely with

"The complete obedience of the lower house of Congress to your wishes has been observed throughout the world. It would be your behest and in this the Senate would give you support. You are a father and you no doubt feel grateful to God when you, upon retiring to rest look upon your sleeping babies in their couches, pictures of health, consequent upon their having a sufficiency of food and clothing. I pray you, however, to enlarge your vision and behold, as you can, in many and many cots. chadren loved as much by their paralits as your's ar by you, weak and lily from insufficient food and clothing, the innocent victims of vicious financial legislation whose sleeping forms are bathed by the scalding tears of mothers bending over them in sorrow and despair and there resolve, as you should, to faithfully carry out the pledges which your party gave to a confiding people. If you will do so God will bless you and a grateful

nation will applaud you." George C. Merrick, president of the Colorado silver league, says: "The silver question has become a Sample Rooms free and especial atnational question, to be carried into the elections of 1894 and 1896, and the work of education should be extended to as to reach every vote especially in the South and East, To do this organization is essential. No backward steps! No surrender! No faltering! No compromise! Until the money of the constitution, silver and gold, 18 to 1, is restored to the people, and the sovereign power exercised, under constitutional limitations as provided by the fathers of the republic,"
